ABOUT ME

Passionate Computer Science Engineer with Honors in Data Science. Proficient in HTML, CSS, Java, and MySQL. Experienced in innovative project development. Eager to excel in dynamic tech roles.

EDUCATION

2019 - 2023
Bachelors of Techanology (B.Tech)
Computer Science and Engineering
Maharashtra Institute of Technology, Aurangabad.

2017 - 2019
HSC - 12th
Science [P.C.M.B.]
Yeshwantrao Chavan College of Science,Sillod.

2016 - 2017
SSC - 10th
Shri Chatrapati Shivaji Vidyalaya Sillod

SKILL

Java

HTML/CSS

C Programming

Database - MySQL

LANGUANGE

English Hindi Marathi

PROJECTS

Title - **PARABRAMHA**
Platform - *JavaScript, Material UI, CSS3*

Parabramha can assist in collecting the leftover food from hotels and restaurants to distribute among those in need. In this way this application will restaurants to reduce food waste and will help in feeding the poor and needy people. Its my minor project. This project has been declared as a best project in my department.

Title - **Banking Application System**
Platform - *JavaScript, Material UI, CSS3, NodeJS, SQL*

Banking App is a software application and which can be used for authentication purposes as required when making Transactions, to access banking services or such other uses as we may designate from time to time. The function of a banking system depends on the type of banks in its network. This is Major Project which is sponsered by Pathpedhi Bank of Jalgoan.
Developed client side interfaces with Node.js, MongoDB and SQL this is used for storing and managing bank-related data.

CERTIFICATIONS

🏆 **Programming For Everybody**
Python

🏆 **Artificial Intelligence Concepts**
by IBM

🏆 **Training Completion Certificate In**
DataVisualization & MachineLearning

HOBBIES

🏀 *Playing Basketball (Our team was runnerup twice)*

🏀 *Sketching*
